The natural way to bottle feed

With the Philips AVENT Natural variable flow nipple, you can adjust the flow rate by simply turning the bottle. The nipple features an innovative petal design for natural latch on similar to the breast, for easy combining breast and bottle.

Ideal for thicker liquids - 3M+
- Adjust the flow rate to baby's convenience

Easy to combine breast and bottle feeding
- Natural latch on due to the wide breast shaped nipple

A more comfortable and contented feed for baby
- Unique comfort petals for an extra soft and flexible nipple

Air goes into the bottle, not baby's tummy
- Advanced anti colic system with innovative twin valve

0% BPA (Bisphenol A Free)
- BPA free nipple

AVENT

Nipple
Natural Variable Flow, 3m+

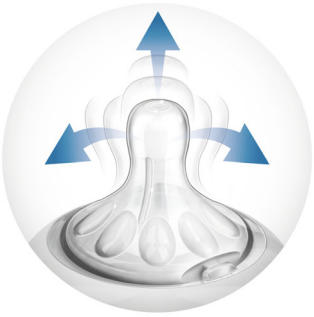
SCF655/27

Highlights

Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

Unique comfort petals



Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

Advanced anti-colic valve

Innovative twin valve design reduces colic and discomfort by venting air into the bottle and not baby's tummy.

BPA free

This nipple is made from silicone - a BPA-free material (Following EU directive 2011/8/EU)

Different flow rates

Philips AVENT offers four different flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. Philips AVENT offers the newborn flow nipple with 1 hole (0M+), the slow flow nipple with 2 holes (1M+), the medium flow nipple with 3 holes (3M+) and the fast flow nipple with 4 holes (6M+). All nipples are available in twin packs.

Compatible with Natural bottle

We advise to use the Natural feeding nipples with Natural bottles only.

Adjust the flow rate

With the variable flow nipple, you can adjust the flow rate according to liquid's thickness and suit baby's feeding rythm perfectly. We recommend to use this nipple for thicker liquids such as AR (thickened) milk, milk mixed with baby rice, milk mixed with baby food, soup… Once baby is ready for an even faster flow, we recommend to use the Philips AVENT Thick Feed nipple.

Specifications

Country of origin
- England
